1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Claims 1-65 are canceled.

2. The following is an examiner's statement of reasons for allowance: Based on the applicant's arguments, the instantly claimed "content of free isocyanate functions" is based on the polyisocyanate prior to the blocking reaction. The prior art does not disclose the instantly claimed products and processes using the instantly claimed "content of free isocyanate functions" based on the polyisocyanate prior to the blocking reaction nor provide rationale to use this "content of free isocyanate functions". Of course, full blocking of the polyisocyanate of the cited prior art would give a value of free isocyanate groups within this range, e.g. approaching 0.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
